OCTOBER 17, 2023

TO WHOM IT MAY CONCERN,

I am writing to express my interest the internship that you have posted online. As a Junior at the University of Arkansas at Little Rock, I would be eager to apply my technical and social skills in a real world setting and contribute to your company. With skills in development and design, and having a background in leadership positions, I believe that I would be a great candidate for this position.

During my time at university, I developed a strong foundation in graphic design, UX/UI principles, and programming, as evidenced by my work in my portfolio. I have been maintaining a 3.95 GPA and have made the Dean's List in both 2021 and 2022.

Additionally, my abilities are not just limited to my technical skills. By being involved in extracurriculars such as The Chancellor's Leadership Corps (CLC) and also a captain on the Little Rock Swim and Dive team, I am a reliable team member and problem-solver. Listening is just as (if not more) important that being a communicator, and I believe I do well at listening.

Although I have not graduated yet, my maturity, creative skills, team-member abilities, and knowledge of the tech world would allow me to thrive at this position, and be an asset to your company.

I have enclosed my resume and welcome the opportunity to discuss how my skills and experiences align with the needs of your company. Thank you for considering my application. I look forward to the possibility of contributing to your organization and am excited about the prospect of an interview.

SINCERELY,

A handwritten signature in black ink that reads "Caitlin Romprey". The script is fluid and cursive, with the first name "Caitlin" and last name "Romprey" clearly distinguishable.
